# CHURCH APPOINTMENT SYSTEM

By moving scheduling online, parishioners can book their own time immediately, while staff spend less time on administrative tasks and more time supporting the community.

Rivera, Stella Grace A.
Taguik, Jessica D.

# THE PROBLEM

Manual Scheduling

Communication Gaps

Staff Burnout

Missed Appointments

Digital Divide

Limited Accessibility

# THE FEATURES

## Online Appointment Booking

A user-friendly system for scheduling Mass intentions, meetings with priests, or participation in parish events, reducing long lines and phone calls.

## 24/7 Virtual Parish Office

A digital platform accessible anytime, so users can request appointments, ask questions, or access information without waiting for office hours.

## Document and Requirement Guide

**For Parishioners**

Provides step-by-step instructions  baptism, weddings, or confirmation, so parishioners come prepared

## Digital Dashboard

**For Church Staff**

Staff can manage appointments, track requests, and monitor parishioner interactions efficiently in one centralized platform

## Real-Time Schedule Availability

Parishioners can view real-time availability for events, preventing double bookings and scheduling errors.

# THE SOLUTION

## User-Centric Web Portal

A mobile-responsive website accessible 24/7, allowing parishioners to book from home.

## Staff Training Program

Upskilling church staffs from manual recording to digital dashboard management.

## Queue Reduction

A significant drop in physical office traffic and waiting times for parishioners.

## Generational Bridge

A system that connects young and old people by using fast, modern technology for the youth while keeping the design simple, clear, and easy to use for seniors.
